

1. **Question**  
What is the correct order of the following steps in the process of photosynthesis?

2. **Answer**  
1. Light absorption  
2. Water splitting  
3. Electron transport  
4. Proton pumping  
5. ATP synthesis

3. **Question**

What is the correct order of the following steps in the process of photosynthesis?

1. Light absorption

2. Water splitting

3. Electron transport

4. **Answer**

1. Light absorption

2. Water splitting

3. Electron transport

5. **Question**

What is the correct order of the following steps in the process of photosynthesis?

1. Light absorption

6. **Answer**

1. Light absorption

2. Water splitting

3. Electron transport

4. Proton pumping

5. ATP synthesis

1

6. ATP synthesis

2

7. **Question**

What is the correct order of the following steps in the process of photosynthesis?

1. Light absorption

2. Water splitting

3. Electron transport

4. Proton pumping

5. ATP synthesis

8. **Answer**

1. Light absorption

9. **Question**

What is the correct order of the following steps in the process of photosynthesis?

10. **Answer**

1. Light absorption

2. Water splitting

3. Electron transport

4. Proton pumping

5. ATP synthesis
